6	Number of participants	12 students + 4 Teaching staff
7	Activity belongs to which Criteria of NAAC	Criteria-2

The department of Botany conducted one day visit to Agri – Expo (ARENA), Moshi on 25th March 2022 for the students of T.Y.B.Sc. class. Four teaching faculty, Dr. K. M. Nitnaware, Dr. Sangeetha J.S., Prof. P. D. Kad, Prof. R.V. Mechkar. and 12 students participated in the visit. The expo was at an open ground near the agricultural market, Moshi. The expo was divided into various sections like Vatika, Agri- inputs, Waste Water Management etc. Different types of agricultural equipments and tools were exhibited there and the volunteers explained their working and uses. One of the stalls was dedicated only for turmeric cultivation using vertical farming. Students and the teachers cleared their doubts with them. Stalls of floriculture, tissue cultured plants, biofertilizers and nano-fertilizers, bio-pesticides, agricultural products etc. were also there. Students got the information on a new techniques like use of drone to automate fertilizer application pesticide spraying and field tracking. The students got information about several new methods of pest eradication. Several types of irrigation systems also were displayed which ensured better irrigation without much water loss. The exhibition was found to be really useful for everyone. The students were exposed to the newer techniques involved in the field of agriculture.
