6	Number of participants	12 students
7	Activity belongs to which Criteria of NAAC	Criteria 3

**Report on Bonsai Workshop**

A Bonsai Workshop was organized on 30th August 2025 at the Botany Laboratory to provide students with theoretical knowledge as well as practical skills in bonsai making. The program was well-structured in two sessions, focusing on both conceptual understanding and hands-on training.

The workshop began with the Introduction of the Program by Dr. Kirti Nitnaware, who highlighted the importance of bonsai art in horticulture and its scope as a creative and scientific practice. Following this, Prof. P. D. Kad introduced the Resource Person, Dr. Kishore M. Chavhan, Scientist at Agriculture College, who has vast expertise in the field of plant sciences and ornamental gardening.

In Session I (Lecture), Dr. Chavhan delivered an informative talk on the history, principles, and techniques of bonsai. He explained the importance of selection of plant species, pruning, training, wiring, and care methods essential for maintaining bonsai.

In Session II (Hands-on Training), participants were given practical exposure to various techniques under the guidance of Dr. Chavhan. They actively engaged in pruning, potting, and shaping of plants, gaining confidence and skill through direct practice.

A total of 12 participants attended the workshop, showing keen interest and enthusiasm. The interactive discussions and practical demonstrations made the session highly effective and beneficial.

The workshop concluded with positive feedback from the participants, who expressed that the program enriched their knowledge and motivated them to practice the art of bonsai further.
