BRIEF REPORT ON GROUP DISCUSSION

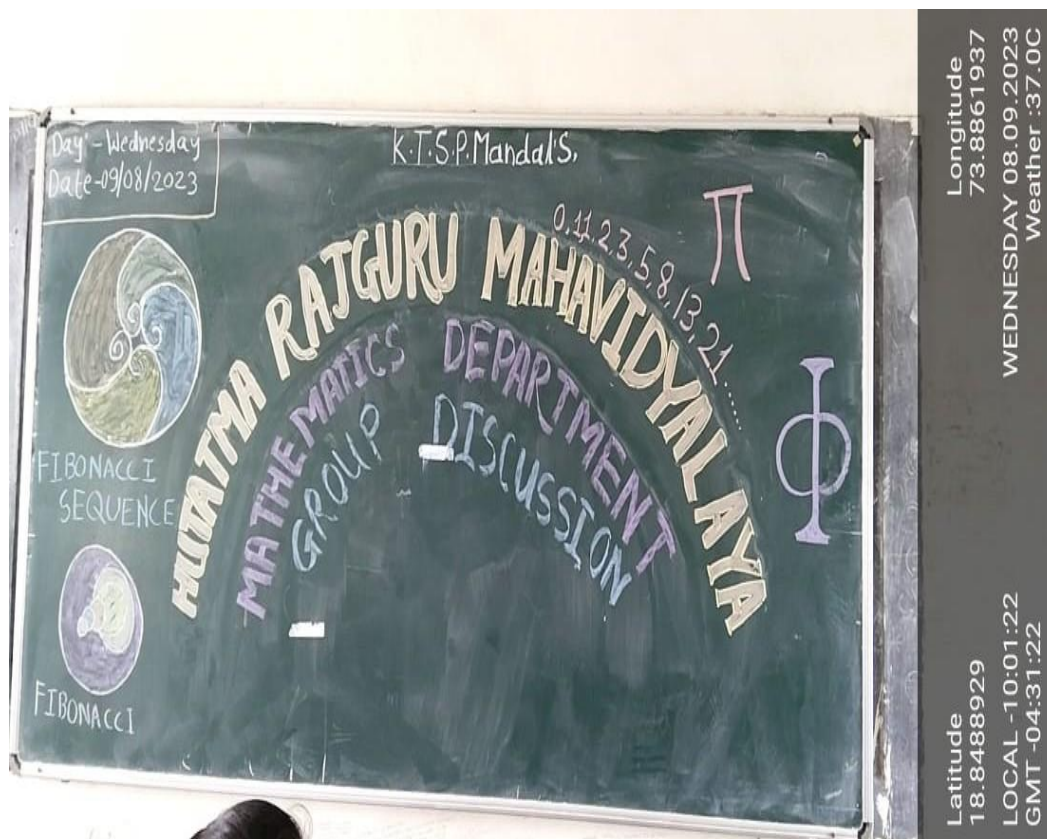

Sr.No.	Particulars	Details
1	Date	09/08/2023
2	Name of the event	Group Discussion
3	Duration of the programme	1 Day
4	Venue	Hutatma Rajguru Mahavidyalaya, Rajgurunagar
5	Name of coordinator	Prof. R.N.Toke
6	Number of Participants	12+1(Staff)
7	Activity belongs to which criteria	Criteria II
8	Curricular/Co-Curricular/Extra-Curricular	Extra-Curricular

Department of Mathematics conducted Group discussion on *Fibonacci Sequence* for the students of F.Y.B.Sc. on 9th August 2023 at Hutatma Rajguru Mahavidyalaya, Rajgurunagar on topic Fibonacci Sequence. The Fibonacci Sequence was discovered by Italian mathematician Leonardo Fibonacci. Total 12 students were participated in this Discussion Prof. R. N. Toke gave the basic information about Fibonacci Sequence. After then one by one student give

information about Fibonacci Sequence which is search by them . Then they are argue with each other on the information finding with them. They are sort out many more the information about Fibonacci, such as what is the Fibonacci Sequence?, In nature ,in which things we find the Fibonacci Sequence?, What is mean by Golden Ration? ,How to use this ratio in now a days?

The Fibonacci Sequence is a series of number that start with 0 and 1.Each subsequent number is the sum of previous two. Fibonacci sequence is use for story estimation because it reflects the exponential growth of uncertainty and complexity as the task get larger.

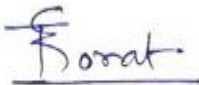

Application of Fibonacci numbers includes computer algorithms such as the Fibonacci search technique and Fibonacci cubes used in interconnecting parallel and distributing system.
