5	Duration of the programme	One day
6	Number of participants	14 students
7	Activity belongs to which Criteria of NAAC	Criteria 2

Report on One-Day Visit to Horticulture Institute

A one-day educational visit to the Horticulture Institute was organized by the Department of Botany on 29th September 2025. The visit aimed to provide students with practical knowledge about horticultural practices, plant propagation techniques, and nursery management.

A group of students, accompanied by faculty members Dr. K. M. Nitnaware and Prof. P. D. Kad, visited the institute and were warmly welcomed by the staff. The experts at the centre explained various aspects of horticulture, including plant propagation methods such as grafting, layering, and budding. A live demonstration of grafting was given, helping students to understand the technique effectively.

Students also observed different types of fruit saplings, ornamental plants, and nursery structures. The visit provided valuable insights into how scientific methods are applied in plant cultivation and maintenance. It helped bridge the gap between theoretical knowledge and practical application.

The visit concluded with an interactive session where students clarified their doubts and shared their learning experiences. Overall, the visit was highly informative and beneficial, enhancing students' understanding of horticultural science and its real-world applications.
