The Department of Mathematics and Statistics successfully organized a Poster Competition on February 20, 2026, curated specifically for F.Y.B.Sc. and S.Y.B.Sc. students. This academic event aimed to bridge the gap between theoretical classroom learning and practical implementation. Under the expert guidance of the examiners, Prof. R. N. Toke and Prof. S. D. Adak, students

transformed complex mathematical theories into visually compelling narratives. By exploring diverse themes ranging from the Journey of Calculus to Cryptography and Population Dynamics participants demonstrated how abstract formulas serve as the backbone of real-world innovation. The event not only highlighted the technical proficiency of the students in areas like Gauss Elimination but also sharpened their ability to communicate intricate ideas with clarity. Ultimately, the competition celebrated the intersection of art, logic, and the endless applications of mathematics and statistics.
