**BRIEF REPORT ON POSTER PRESENTATION**

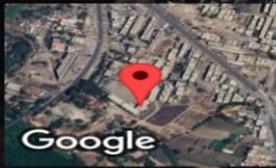

<b>Sr.No.</b>	<b>Particulars</b>	<b>Details</b>
1	Date	21/02/2025
2	Name of the event	Poster Presentation
3	Duration of the programme	1 Day
4	Venue	Hutatma Rajguru Mahavidyalaya, Rajgurunagar
5	Name of coordinator	Prof. R. M. Wayal
6	Number of Participants	20
7	Activity belongs to which criteria	Criteria II
8	Curricular/Co-Curricular/Extra-Curricular	Extra-Curricular

On 21st February 2025, the Department of Mathematics and Statistics organized a Poster Presentation on Mathematics for the First-Year Bachelor of Science (F.Y.B.Sc.) students. The event aimed to encourage students to explore mathematical concepts beyond their regular coursework, while also honing their research, analytical, and presentation skills. Students were assigned a variety of topics, ranging from algebra and calculus to more advanced fields like cryptography and mathematical modeling. Each student or group was tasked with creating a poster that explained their topic clearly, with visual aids such as diagrams, graphs, and charts to enhance the presentation.

The poster presentations covered a wide array of mathematical subjects, including algebraic structures, calculus applications in real-world problems, probability and statistics, and even the intersection of mathematics and cryptography. The students were encouraged to not only explain the theoretical aspects of their topics but also demonstrate their practical applications in fields like economics, data science, and cyber security. In addition to the poster itself, students had the opportunity to present their work to an audience, answering questions and engaging in meaningful discussions with peers and faculty.

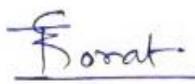

A panel of faculty members and guest experts evaluated the presentations based on content accuracy, creativity, clarity, and presentation skills. The event was a success, with participants showcasing their creativity and enthusiasm for mathematics. The interactive nature of the event allowed students to engage with diverse topics, enhancing their overall learning experience and fostering a deeper appreciation for the subject. The feedback from both the students and the faculty emphasized the importance of such initiatives in bridging theoretical knowledge with real-world applications. This poster presentation not only provided students with the opportunity to develop their academic and communication skills but also encouraged them to think critically and creatively about the role of mathematics in various fields.
