The Department of Mathematics and Statistics organized a Sudoku Competition on February 14, 2026, aimed at fostering logical reasoning and analytical skills among undergraduate students. The event saw enthusiastic participation from students of F.Y.B.Sc. and S.Y.B.Sc. The competition was designed to challenge the quantitative aptitude and problem-solving speed of the

participants. Sudoku, being a logic-based, combinatorial number-placement puzzle, serves as an excellent exercise for the mathematical mind. Participants were required to complete complex grids within a stipulated time limit, with accuracy being the primary judging criterion. The event was a great success, providing students with a platform to engage in healthy academic competition outside the traditional classroom environment. The Department of Mathematics and Statistics extends its heartiest congratulations to the winners and thanks all the participants for their spirited involvement. Such activities continue to play a vital role in sharpening the mental faculties required for a successful career in science and statistics.
