5	Duration of the programme	One day
6	Number of participants	13 students
7	Activity belongs to which Criteria of NAAC	Criteria 3

Miniature gardens in Jar: Terrarium making workshop

The Department of Botany organized a One Day Workshop on Terrarium on 1st September 2025 with the objective of providing students practical exposure to the preparation and maintenance of terrariums.

A total of 13 students participated in the workshop with great interest and enthusiasm. The session was conducted by Dr. K. M. Nitnaware, who explained in detail the techniques of designing and preparing terrariums, including the selection of containers, layering of soil, planting methods, and maintenance tips.

The practical session was effectively supported by Prof. P. D. Kad, who guided the students in hands-on preparation. Under his supervision, participants prepared their own terrariums and gained valuable practical knowledge.

The workshop turned out to be highly informative and interactive, giving students both theoretical understanding and practical skills. The participants appreciated the initiative of the Department and expressed their eagerness to apply the techniques learned in their own projects.
