Twenty-five students of S.Y.B.Sc. Botany and two teaching staff of Department of Botany, Hutatma Rajguru Mahavidyalaya, Rajgurunagar attended one day workshop on “Cross pollination on Onion by using stingless honey bees” at the Directorate of Onion and Garlic Research Centre, Rajgurunagar. The training was conducted on Wednesday, 10th January 2024. The workshop was arranged by under the aegis of Scientific Social Responsibility (SSR) of DST funded project on “Taping the potential of native stingless bee *Tetraglona iridipennis* Smith for pollination enhancement and profitable onion seed production.”

The program started in the seminar hall with the registration process at 9.30 am. An introduction to the course was later given by the Dr. Kalyani Gorrepati, Senior Scientist, ICAR-DOGR Pune. It was followed by lectures combined with power point presentations. The first lecture was on ‘Different types of Honey bees’ delivered by Mr. Chandrashekhar Pote. Second lecture was given by Mr. Dhananjay Shirsat. He gave detailed information about honey bees, hives, culturing of Honey bees. He also gave information about stingless honey bees, production of honey, effect on pollination and production of crops. All the lectures were found to be very much informative.

After a short lunch break from 1.00 to 1.30 pm, students visited to field where project of artificial production of honey is going on. Students also visited to seed technology lab where different tools for seed collection, storage, packing can be seen.

The training session concluded with the valedictory ceremony where students and teachers gave their valuable feedback. All the participants were presented with certificates by the hands of Dr. Kalyani Gorrepati, Senior Scientist, ICAR-DOGR Pune.

Later, there was a group photo session and the program concluded. By 4.30pm, the group returned back to college. The training program was found to be greatly enriching which provided lots of new experiences.
