Report

The Department of Botany organized a guest lecture on “**Career Opportunities in Botany**” for F.Y.B.Sc students on 27th March 2026. The lecture was delivered by Dr. Vinayak H. Lokhande, an experienced academician and expert in the field of plant sciences. The session aimed to create awareness among students about the diverse career options available in botany. The program began with a warm welcome and introduction of the guest speaker. Dr. Lokhande delivered an informative lecture highlighting the wide scope of Botany in modern times. He explained that botany is not limited to teaching but offers numerous career opportunities in areas such as research, agriculture, environmental science, forestry, biotechnology, and conservation.

He emphasized the importance of higher education, encouraging students to pursue postgraduate studies and research in specialized fields of botany. He also discussed opportunities in government and non-government sectors, including roles in environmental protection agencies, agricultural departments, and research institutions.

Dr. Lokhande further guided students on skill development, stressing the need for practical knowledge, internships, and participation in workshops and seminars. He motivated students to develop scientific thinking, communication skills, and professional networking to enhance their career prospects.

The lecture was highly informative and inspired students to explore various career paths in botany. The session concluded with an interactive question-answer round, where students actively participated and clarified their doubts. The program ended with a vote of thanks, expressing gratitude to the guest speaker for his valuable guidance.
