Best Practice 2: Student Mentoring System

Objectives

1. **Academic Support:** To offer tailored academic assistance to students to enhance their learning experience.
2. **Holistic Development:** To promote the overall development of students, addressing academic, personal, and professional growth.
3. **Early Issue Identification:** To detect and address academic and personal issues early on to prevent potential problems.
4. **Strengthening Relationships:** To foster strong, supportive relationships between students and faculty.

Context

The Student Mentoring System was initiated to address the multifaceted needs of students in a comprehensive manner. It aims to create a supportive environment where students can thrive academically and personally. The system is designed to provide continuous support, helping students navigate their educational journey and overcome challenges.

The Practice

Distribution of Students to Mentors/Teachers:

- Students are assigned to mentors at the beginning of their academic program.
- The student-teacher ratio is maintained at 43:1 to ensure effective mentoring.
- Assignments are based on compatibility, ensuring mentors can provide relevant guidance.

Guidelines for Mentors:

- Mentors are trained in mentoring techniques and are briefed on the objectives and practices of the mentoring system.
- They are provided with guidelines on how to conduct mentoring sessions, maintain records, and identify student needs.

Methods Used for Mentoring:

1. **Regular Meetings:** Mentors meet with their mentees at least once a month. These meetings can be one-on-one or in small groups.
2. **Health Issues Guidance:** Mentors provide guidance on health-related issues, including stress management and maintaining a healthy lifestyle.
3. **Academic Support:** Mentors assist with assignments, tutorials, and provide special guidance for difficult subjects.
4. **Personal Development:** Sessions include discussions on career planning, time management, and other skills essential for personal growth.
5. **Record Keeping:** Mentors maintain detailed records of each session, noting the topics discussed, action items, and progress made.
6. **Identifying Learners:**
 - o **Slow Learners:** Identified through academic performance and participation. Special remedial classes and additional tutoring are arranged for them.
 - o **Advanced Learners:** Identified through their performance and enthusiasm. They are given opportunities for advanced projects and leadership roles.

Evidence of Success

1. **Improved Academic Performance:** Students participating in the mentoring program show significant improvement in their academic results.
2. **Higher Retention Rates:** The retention rates of students have increased due to the support provided, reducing dropout rates.
3. **Positive Feedback:** Surveys indicate high levels of satisfaction among students with the mentoring system.
4. **Enhanced Well-being:** There is a noticeable improvement in the overall well-being of students, with reduced instances of stress-related issues.

Problems Encountered and Resources Required

Problems Encountered:

1. **Time Constraints:** Scheduling regular meetings can be challenging due to the busy schedules of both students and mentors.
2. **Engagement Levels:** Some students may be less proactive in seeking help or engaging fully in the mentoring process.
3. **Training Needs:** Mentors require continuous training to handle diverse student needs effectively, especially in mental health and counseling.

Resources Required:

1. **Dedicated Time:** Allocating specific time slots within the academic schedule for mentoring sessions.
2. **Training Programs:** Regular training workshops for mentors to keep their mentoring skills updated and effective.
3. **Administrative Support:** A team to manage the logistics of the mentoring program, track progress, and handle scheduling.
4. **Counseling Services:** Professional counseling services for students needing specialized support beyond what mentors can provide.

By addressing these challenges and leveraging the necessary resources, the Student Mentoring System effectively supports students' academic and personal development, contributing to their overall success and well-being.

Notice

Date:- 20/09/2022

All the faculty members of the college are informed that mentor mentee work distribution has been finalized. The teachers have to distribute the prescribed formats to the students allotted to them and collect these forms before 01/10/2022.

This record has to be preserved properly. All the teachers are instructed to solve the academic problems of the concerned students if any.
