Green Club 2023-24

Village Survey Programme

In Hutatma Rajguru Mahavidyalaya, Green Club was established in the academic year 2023-24. Different activities were organized by Green Club in this year. on Sunday 21/01/24 Village field visit was organized by Green Club. Green club students went to Bahirwadi village with the main objectives of studying water supply in the village, waste management in the village, surveying the leaky taps in the village, inspecting the sewage. Bahirwadi is a hilly village in Khed taluka of Pune district.

At 12.00 noon Green club students reached Bahirwadi village. After that they inspected the sewage. Conducted a survey of leaking taps in the village. The citizens of the village were counseled. Citizens were guided about digging absorption pits to manage sewage. After that, Green Club students collected the waste from the area and managed the waste. They Studied village water tank and drainage. Lunch was taken in the same village. College Principal Dr. Shirish Pingle gave permission for the village survey. Green Club Committee Chief Dr. DM Markad guided the students.
